

Flucon Chemical Resist Conduit Pipes .

- **Raw material** : Specially formulated plastic
- **Ingress protection** : IP 65
- **Resistant** : To harsh chemicals, alkalies , chemical fumes and acids
- **Temperature range** : -20° C TO +80°C
- **Certification** : RoHS
- **Colour** : Black Ral 9005

Flucon chemical resistant conduits are suitable for use with chemical pump installation, lift shaft installations, chemical and petroleum tanks and hazardous areas.
